Preliminary Design Review Application 7 Checklist

Cabot Saint Lucia Architectural Design Committee

Submittal Requirement Checklist

Submissions will be accepted after all information as noted in Section 4.7.1 of the Architectural Standards has been provided. Complete submissions are required seven days in advance of scheduled ARC meetings. Please refer to the ARC for meeting dates and any questions regarding submission requirements via email at CSL.arc@cabot.com.

Please use this form as a checklist to ensure you have included all submission items and have met the requirements of each document as detailed in Section 4.7.1 of the Architectural Standards. The following drawings are required for the preliminary design review package and may be uploaded to the ARC portal, sent via a secure document sharing platform, and/or digital files may be mailed or dropped off at the ARC offices.

Preliminary Design Submittal Checklist

- Property Survey
- Site Sections
- Staking Plan**
- Preliminary Design Review Application Form
- Water and Energy Conservation Strategies
- Location Map
- Site Plan
- Floor and Roof Plans
- Schematic Elevations
- Conceptual Landscape Plan
- Other (as requested by ARC)

***Upon submission of preliminary design review documents for all Improvements, the Owner is to stake the corners of all proposed buildings, any proposed building additions and all other major Improvements and driveway centerlines. The preliminary design review submission will not be considered complete until the building footprint and driveway are staked.*
